## AÉRO MONTRÉAL : A WORLD-RECOGNIZED INDUSTRIAL CLUSTER

Aéro Montréal brings together all of Québec's aerospace OEMs and major suppliers, as well as a network of more than 230 companies, equipment manufacturers, SMEs, and other partners (governments, educational institutions, research centres, associations, and unions).

Aéro Montréal promotes the competitiveness, growth, and positioning of the aerospace sector in Québec, Canada and abroad.

## INTERNATIONAL B2B MEETINGS

With more than 1 300 international visitors and some 500 B2B meetings, the International Aerospace Innovation Forum remains a privileged moment to meet aerospace industry players, demonstrate your expertise, present your innovations and find new business partners. Building on its past success, a dedicated digital platform will allow you to identify key partners and plan B2B sessions during the event.

## INTERNATIONAL AEROSPACE INNOVATION FORUM 2022

The International Aerospace Innovation Forum 2022 is being organized by Aéro Montréal, in collaboration with the National Research Council Canada (NRC).

**The International Aerospace Innovation Forum is the largest gathering of aerospace decision-makers in Canada. It will be held on September 6 and 7, 2022, in a hybrid format: in-person at the Palais des congrès de Montréal and virtually, via a web platform. It will kick off International Aerospace Week - Montréal 2022**

The 2022 edition will be held around the theme of **"Journey to the heart of sustainable air mobility"** and will focus on three major subthemes covering all the players in our sector's value chain:

- **Sustainable transformation (ESG):**  
Revisiting governance and development models to respond collectively to the environmental emergency and social issues
- **Emerging technologies:**  
Investigating sustainable short-, medium- and long-term solutions to meet climate goals
- **Innovation Zones:**  
Exploring and mapping catalysts for research and development and deploying the commercialization of innovation
