# ABOUT AEROMART MONTRÉAL 2025

# **ABOUT**

Aeromart Montréal is a leading international business convention connecting aerospace manufacturers, suppliers, service providers, and industry experts. As North America's premier matchmaking event for the aerospace supply chain, Aeromart Montréal provides a unique platform for B2B meetings, conferences, and networking opportunities tailored industry's evolving needs.

The 2025 edition will once again bring together key players from OEMs, Tier 1 suppliers, and SMEs to explore emerging technologies, sustainability strategies, supply chain challenges, and workforce development. With a strong focus on innovation and collaboration, Aeromart Montréal is the place to forge new partnerships, identify business opportunities, and drive the future of aerospace.

Montréal is a global aerospace hub, home to leading companies such as Bombardier, Airbus, Pratt & Whitney Canada, CAE, and Bell. With a highly skilled workforce, worldclass research institutions, and a strong commitment to innovation, the city plays a pivotal role in shaping the future of aviation and space technologies. Its strategic location and thriving ecosystem make it the ideal place for business, investment, and collaboration in aerospace.

# **NEW IN 2025**

# STARTUP PAULLION

For the first time, Aeromart Montréal will feature, the AeroLabs pavilion, a startup zone providing opportunity for 16 local startups to showcase their innovative technologies and solutions to the aerospace industry.

# **WEBCAST STUDIO**

All participants will have the chance to be interviewed live on the Webcast Studio stage, showcasing their company, innovative solutions, or call for project. These interviews will be shared across Aeromart social media platforms, amplifying their reach and visibility within the aerospace community.

# 🔄 TALENT ZONE

The Talent Zone at Aeromart Montréal brings together universities, training centers, and major aerospace education companies to showcase programs, certifications, and career opportunities. Designed for students and young professionals, this area offers direct connections with industry leaders and HR representatives to explore in-demand skills and career pathways in aerospace.

# Trade Commissioner Service

Is your business interested in expanding abroad? The Trade Commissioner Service helps businesses of all sizes succeed in international markets with export advisory services, funding, accelerator programs, and tailored support at trade events.

With a presence in more than 160 cities worldwide, we can help you take off on your export journey!

# GENERAL INFORMATION

# **VENUE**

# Palais des congrès de Montréal

1001, place Jean-Paul Riopelle, Montréal, H2Z 1H2, Quebec, Canada Aeromart Montréal is located in Room 220 C-D-E on the 2nd floor.

# **OPENING HOURS**

# WEDNESDAY, MARCH 26, 2025

Registration: 8:30 - 18:00

Exhibit hall hours: 8:00 - 18:30

# THURSDAY, MARCH 27, 2025

Registration: 8:30 - 12:30

Exhibit hall hours: 8:00 - 18:00

# **ADMISSION**

All pre-registered participants are required to print their badge and wear it upon arrival to access the event premises.

All visitors must purchased their tickets in advance through the online platform, <u>here</u>.

# **BADGES**

On the Aeromart Montréal premises, it is mandatory to wear your badge at all times for safety and security reasons.

**AEROVAC** 

Diab 3M

# **PUBLIC TRANSPORT**

# By subway

Orange line, stop at Station Place-d'Armes

# By bus

Lines 55, 129, 150, 363, 445

# By bike

The Palais des congrès has 200 bike racks near the entrance and there are also bixi stations nearby.

# By car

Indoor parking (paid) is available at the Palais des congrès.

Find all necessary information, here.

# **PHOTOS & VIDEOS**

By registering for this event, participants acknowledge and agree that photographs and videos may be taken during the event. These images and recordings may feature attendees and could be used by the organizers for promotional, informational, or communication purposes across various media platforms.

If you have any concerns, please contact us prior to the event.

# EVENT OVERVIEW

# THE AEROSPACE INDUSTRY IN MOROCCO

20 years	20 000 employees	2,1\$ BN Export Revenue
146 Companies	40 % Local integration rate	17 % Average annual growth

# MISSIONS OF GIMAS

Consolidate and reinforce Morocco's Aerospace Industry competitiveness and contribute to its global exposuare. Federate, represent and defend Moroccan companies' interests on public and private, national and international spheres.

Represent its members in national and international airshows - Le Bourget, Farnborough, Aarospace Meetings Casablanca, etc.

Meet the industry's needs in trained workforce with the development of IMA - Moroccan Aerospace Institute.

Integrate research & development in the national aerospace strategy through partnerships with universities and researchcenters, within AMC - Aerospace Moroccan Cluster

# **TUESDAY, MARCH 25**

# Global Aerospace Supply Chain Summit | Room 511 (5th floor)

Participant check-in: 7:30 - 9:00

Conferences: 9:00 - 12:25 / 13:35 - 17:20

Lunch-conference: 12:40 - 13:15

Neworking cocktail: 17:20 - 20:00 (onsite)

# WEDNESDAY, MARCH 26

# Aeromart Montréal I Room 220 C-D-E (2nd floor)

Participant check-in: 7:30 - 8:30

B2B Meetings: 8:30-12:30 / 14:00-18:30 Conferences: 9:45-12:10 / 14:00-16:25 Startup Pitch Session: 15:40-16:00

Cocktail reception: 18:45-23:00 (at the Vieux Port de Montréal, 2 rue de la

Commune O, Montréal H2Y 4B2)

# **THURSDAY, MARCH 27**

Aeromart Montréal I Room 220 C-D-E (2nd floor)

Participant check-in: 7:30 - 8:30

B2B Meetings: 8:30-12:30 / 14:00-18:30 Conferences: 8:55-12:35 / 14:00-15:10

End of event: 18:00

ENGINE FORUM KOBE	INTERNATIONAL BUSINESS CONVENTION FOR AERO ENGINE & GAS TURBINE ENGINE	KOBE, JAPAN	NOV. 17 - 18, 2026
AEROMART TOULOUSE	CONNECTING PEOPLE AND FOSTERING INNOVATION & SUSTAINABILITY IN AEROSPACE, UAS & ADVANCED AIR MOBILITY	TOULOUSE, FRANCE	DEC. 1 - 3, 2026

# CONFERENCE PROGRAM

# WEDNESDAY, MARCH 26

# Supply Chain Insights from Bell Textron Canada

**○ 09:45-10:05 | ○ Conference Room** 

# SPEAKER:

Chantal BOUCHER, Senior Purchasing Manager - Bell Textron Canada Ltd.

# Moroccan Aerospace Industry: Supply Chain & Human Resources - New Opportunities for Competitiveness

# SPEAKER:

Maria EL FILALI, General Manager - Groupement des Industries Marocaines Aéronautiques et Spatiales (GIMAS)

# In Partnership with KLB, Exploring How AI and Emerging Technologies Can Enhance Supply Chain Efficiency

Session sponsored by: MOOVINV

Material sourcing is one of the biggest challenges today, fighting against inflation, supply shortages, no stock availability, faltering markets, war and crisis. Material bans and embargos, legal and environmental restrictions and supply chain regulations even intensify these challenges. The speech will show how MoovinV helps its customers to utilize its software tool (JULIE AGILE SOURCING) and integrated AI services to overcome these challenges and to even turn them into a competitive advantage. Finally we will chat out of the box, how to use the shown solutions in fully integrated and compliant Aerospace approval and sourcing processes.

# We will cover the topics:

- Efficient fully digital processes for material sourcing to cut sourcing times down to a fraction
- Use of equivalent materials to get material from where it is globally available
- Use of Al to find the right time for material orders, to buy at the best availability and at the lowest cost

#### SPEAKERS:

Jacques OUELLET, CEO - MoovinV

Stéphane ROCHE, Senior Vice President, Consulting & Growth - Groupe KLB

# How Can You Reclaim Your Supply Chain with the Help of Artificial Intelligence?

Over the past 5 years, supply chains have experienced many upheavals, creating uncertainty, rising costs and operational complexities.

Despite the creativity and adaptability of organizations, there are too many pieces of information and partners involved to have a clear picture of the situation, and the right data to make tactical or strategic decisions.

The accelerating adoption of artificial intelligence in the supply chain is enabling organizations to equip themselves with decision-making data, to better organize and structure their entire chain, and to add value to services and products.

During this workshop, we will present concrete examples of partnerships with our customers on the adoption of AI tools for advanced supply chain use, and the benefits for their partners and customers.

#### SPEAKER:

Magali AMIEL, Director Consulting Expert, PhD, CMILT - CGI

# Identifying AI Opportunities in the Aerospace Industry

This workshop offers an overview of AI applications in aerospace, with a focus on high-impact projects such as predictive maintenance, quality control automation, and production chain optimization. Participants will learn how to identify potential AI projects within their organization and assess project feasibility by considering available data, resources, and return on investment (ROI).

#### SPEAKER:

Alexandre GERVAIS, Sales Director - VOOBAN

# Portugal - A Rising Global Hub for Aerospace Innovation

Portugal is emerging as a business location in the aerospace sector, thanks to expansion projects by leading players including Aernnova, Airbus, or Embraer. This session will showcase Portugal as a platform for European expansion, based on its manufacturing, engineering, and R&D capabilities. AICEP, Portugal's Trade and Investment Agency, will lead the session, featuring insights on business and partnership opportunities, along with support schemes, currently available in Portugal.

## SPEAKERS:

Luis SEQUEIRA, Senior Trade and Investment Commissioner - Embassy of Portugal in Canada, and Director - AICEP TORONTO
Pedro PINTO DE SOUSA, Senior Manager, Inward Investment - AICEP TORONTO

# ESG in Aerospace: A Strategic Lever to Differentiate and Accelerate SME Growth

Health crises, supply chain disruptions, geopolitical tensions... The aerospace sector is constantly facing turbulence. What if ESG became your key asset to navigate with agility and strengthen your market position? Whether it's to attract OEMs, conquer new export markets, or attract top talent, a well-thought-out ESG strategy allows you to seize unique opportunities. Come discover how innovative SMEs are transforming ESG challenges (CSRD, ECOVADIS, CBAM, Carbon Footprint, ISO 14 001) into real drivers of growth and differentiation. Strong ambitions, concrete results, and pragmatic solutions await you on our panel.

#### SPEAKERS:

Marius ANDRÉ, Business Relations Director - COESIO Léa GUICHETEAU, Director, Image & Sustainability - AÉRO MONTRÉAL Anne-Renée MELOCHE, VP of HR - Groupe Meloche Ivan PERRIER, COO - Groupe DCM

# Optimizing nextgeneration flight.

# Who we are

With nearly 30 years of expertise in Hardware-in-the-Loop simulation, we serve aerospace, automotive, and energy markets worldwide. Our team of hundreds of experts delivers cutting-edge solutions, helping engineers refine and test complex systems with precision.

# opal-rt.com/aero

# Why choose us

# **Deep Industry Experience**

Accelerate your development cycles with flexible solutions that integrate seamlessly with existing testing architectures.

## A Trusted Partner

Reduce costs, mitigate risks, and ensure solutions meet your unique requirements through adaptable project management.

# **Respected Deadlines**

In-house manufacturing with COTS components ensures custom, innovative designs and reliable delivery times.

# **Our services**

#### TEST BENCH CAPABILITIES

Avionics systems, Cybersecurity, Electric propulsion systems, Flight control systems, Spacecraft systems, and more.

#### INDUSTRY STANDARDS

- Communication protocols (ARINC 429, CAN, MIL-STD-1553, etc.)
- Multiple modeling environments (MATLAB Simulink, FMI, C, C++)
- DO Certification support (DO-178C, DO-254)
- Program lifetime support

# ragnix success story

[Our] objective was to test the control software designed for the flight in a very short period of time. OPAL-RT systems helped in the rapid modeling and emulation of hardware used for the verification and validation of the software.

**Akshat Yadav** 

Power Electronics Engineer at magniX

# Collaborative Decarbonization: a Strategic Lever to Strengthen Supply Chain Resilience

# 

In the face of the energy transition, reducing the carbon footprint of products has become imperative. Key industry players, as drivers of change, have the power to accelerate decarbonization. But could their support also strengthen supply chain resilience?

This conference draws on the experience of the first aerospace cohort to explore how environmental challenges can be transformed into real resilience levers.

#### SPEAKERS:

Philippe HUDON, President & Founder - Akonovia, and President - Décarbone+ Marie-Hélène LE GOFF, General Manager - Composites VCI Stéphanie LEMIEUX, Founder, President and DAO Leader - Libellule Monde Julien ROLLIER, Manager, Supply Chain Sustainability - CAE

# Startup Pitch Session I Discover the Future of Aerospace Innovation!

# 

Join us for the Startup Pitch Session and connect with dynamic, innovative startups presenting cutting-edge solutions! Explore transformative technologies and meet visionary minds shaping the future of the aerospace industry.

#### PARTICIPATING STARTUPS:

- Aero PMD
- Beslogic
- DeepSight
- FSQ Experts North America Inc.
- Let's Warp Inc.
- twiinIT

# Discover Toulouse and the Occitanie Region, the Global Hub for Aeronautics and Space, Pioneering the Future of Sustainable Aviation

# 

The Occitanie region has a unique Eco system for the development of your aeronautical and space activities:

- Presence of 3 aircraft manufacturers: Airbus (world HQ) ATR (world HR) and DAHER and new players (Aura Aero, Delair...)
- 80,000 jobs and more than 800 sub-contractors in aeronautics and space 9,000 researchers and 19,000 students in the aerospace field
- A complete sector: Design offices, mechanics, avionics, aerostructures, interior fittings, Air Traffic management, MRO and deconstruction. The Occitanie Region is also positioning itself on the technologies of the future: zero emission aircraft, hydrogen, cybersecurity, Industry 4.0, additive manufacturing, artificial intelligence, carbon-free aviation (drones, flying taxis...)

## SPEAKER:

Philippe BAYLET, Head of Aerospace and Intelligent Transport Systems Department - AD'OCC

# CONNECTICUT AEROSPACE & DEFENSE CONFERENCE

HARTFORD, CT NOV. 04-06, 2025

Supplier summit reserved for vetted aerospace & defense companies and based on pre-arranged meetings.

COLURS AEROSPACE PEATT & WHITNEY SWITHTON

# **THURSDAY, MARCH 27**

# The "A220 Business Autonomy" Project

○ 08:55-09:40 ○ Conference Room

Session sponsored by: **IHM** 

The 'Airbus A220 Business Autonomy' project focused on achieving the separation of A220 from Bombardier's operations, primarily addressing the need of becoming an autonomous Company by January 2025 while increasing the A220 production rate and striving for the profitability of the A220 program. The project involved complex data, systems, and operational transitions. The goal was to give Airbus full autonomy in its operations while maintaining the integrity and efficiency of the A220 program. As one of a kind, the challenge was to migrate in 18 months 574 applications, around 2.5 Petabytes of data & almost 1 billion documents, concluding by a 8 Days cutover with over 500+ employees involved.

## SPEAKERS:

Rishi Kumar PATEL, Associate Partner, Hybrid Cloud Services - IBM Xavier BOUZIGON, A220 Digital & Business Transformation Release Management - Airbus

# Industry & Education: Tackling Recruitment Challenges and Shaping **Tomorrow's Workforce**

○ 09:45-10:55 ○ Conference Room

# SPEAKERS:

Moderator: Jean-Sébastien GUAY, Founder - AeroEmploi Chantal BOUCHER, Senior Purchasing Manager - Bell Textron Canada Ltd. Pierre DUMOUCHEL, Director of Technology Transfer - IVADO Pascal LABELLE, Director, Organizational Learning, Human Resources - Bombardier Geneviève NANTEL, Head of Development - Airbus David RANCOURT, Associate Professor - Université de Sherbrooke

# Upgrade integration to Fastenal's Onsite Model

Session sponsored by: FASTEVAL\*

Join the Fastenal workshop to explore how Fastenal's Onsite Model and innovative technologies can deliver significant cost savings and productivity improvement in managing industrial supplies, PPE, cutting tools and even Mil-Spec hardware.

Discover why Fastenal is the Global leader in automated inventory management solutions currently supporting over 126,000 devices. Learn about the benefits and applications to successfully implement Fastenal's different cutting-edge technologies like vending machines, smart scales, asset management lockers, RFID, and infrared.

Understand why Fastenal's inventory management programs, backed by an extensive 18 product lines offering, 12 Industrial services and private fleet offer unmatched service.

To confirm that you should be the next customer on Fastenal's route, Aeromart attendees can benefit from a complimentary Total Cost of Ownership Analysis performed by a Fastenal Six Sigma Black Belt expert.

# SPEAKER:

Carl DE NITTO, Regional Director for the Greater Montreal - Fastenal

# Trustworthy AI for the Aeronautics Industry

Session powered by: FUTURE

#### SPEAKERS:
